Nursery Internship - Stillwater Natives Nursery

Winter - Spring 2026

2 High School Internships available – to apply mail or email your application to:

Darcy Grahek at PO Box 1714, Bandon, OR 97411

Email - darcygrahek@gmail.com or call 541-260-2182 Question are welcome!

We grow native species plants organically from seed and cuttings. Our program is adaptable and hours are flexible to accommodate your schedule. Required are 72 hours of your time after school or on weekends. Your school can give you a credit for your effort, as work experience. An **\$800.00 stipend** will be awarded by **Friends of Bandon Parks & Recreation** *upon completion* of this internship.

The following apply specifically to the nursery and horticultural industry as well as habitat restorations.

Interns will:

- Be willing to get dirty, maybe get wet, and work outdoors
- Be on time and follow directions closely
- Work well with others and also to be comfortable working independently
- Be able to lift 35 lbs and walk on uneven terrain
- Tolerate an outdoor work environment. Exposure to indoor and outdoor environmental conditions, including extreme temperature fluctuations, rain, dust, allergens, insects, and sun exposure.

Main duties will be starting seeds, mixing custom potting soil, transplanting trees and shrubs, creating habitat on public land or around nursery. We work in the greenhouse when weather is rainy and absences can be made up with written assignments.
